SUMMARY

Innovative **UI/UX Engineer** with a strong background in software engineering and digital product design. Skilled at crafting intuitive, accessible, and visually compelling interfaces across **web and mobile platforms**. Blends design thinking, frontend development, and system integration to deliver seamless user experiences. Experienced in **React.js, React Native, Tailwind, TypeScript, and Figma**, with proven ability to conduct usability testing, optimize performance, and align solutions with business goals. Adept at working in agile teams, bridging design and engineering, and applying a **human-centered approach** to technology.

EDUCATION

University of Rwanda 2021 – 2025 | Kigali, Rwanda
Bachelor's Degree in Computer and Software Engineering

Software Development Program November 2022 – September 2023
KLAB Techup SkillsNovember Kigali
- Backend dev with Node.js, Express, MongoDB
- Teamwork via Agile standups and pair programming

Andela Technical Leadership Program (ATLP) October 2023 – April 2024 | Kigali
Andela
- Full-stack training in React.js, Node.js, TypeScript
- Built real-world applications in 3-month internship

Mobile Development Training March 2024 – May 2024 | Kigali
ICT ChamberMarch 2024 - May 2024
- Cross-platform development with React Native
- Focused on JavaScript, TypeScript, and UI/UX

EXPERIENCE

Ingata Technologies Ltd October 2024 – Present | Kigali
https://ingatatech.com/
- Developed enterprise applications with scalable backend logic
- Participated in secure CI/CD workflows and debugging production issues

Full Stack Software Intern July 2024 – September 2024 | Kigali
Ethical Research Solutions
- Built end-to-end solutions with React, Node.js, and RESTful APIs
- Integrated security and logging tools to monitor app health

Mobile UI/UX Apprenticeship April 2024 – July 2024 | Kigali
House Major Company

- Created cross-platform mobile apps using React Native
- Integrated APIs and managed state across components

Full Stack Software Engineer Trainee October 2023 – April 2024
Andela Kigali, Rwanda

- Built full-stack apps, implemented Jest/Mocha tests Set up
- Docker environments and CI/CD with GitHub Actions

SKILLS

Languages
JavaScript, TypeScript, Python, Java, HTML, CSS, PHP, C/C++, SQL, Embedded C

Databases and Testing & DevOp
MySQL, PostgreSQL, MongoDB and Jest, Mocha, Chai, Supertest, CI/CD, Docker, Git,Linux, Terraform (basic), Nginx, Ansible (familiar)

Monitoring and Other
Prometheus, Grafana, ELK/EFK (familiar) and Agile/Scrum, Jira, GitHub, UI/UX, IoT hardware integration

Networking & Protocols
TCP/IP, UDP, HTTP/HTTPS, DNS fundamentals

Troubleshooting & Support
Application debugging, log analysis, device compliance basics

Frontend and Backend
React.js, React Native, Tailwind CSS, Responsive Design, Node.js, Express.js, Django, Laravel

Core Skills and Soft Skills
API integration, Database Management, System Design, Cross-platform Development, IoT Systems, Problem-solving, Communication, Collaboration, Independent & Team Work and Agile Workflow, UI/UX Principles, Performance Optimization

Cybersecurity & SOC Tools
SIEM tools (Elastic Security, Splunk – basic familiarity)
Endpoint hardening, Antivirus/EDR (familiar with Windows, Linux, macOS security)
Access & identity management (Okta, Azure AD – basic)
Log analysis, incident documentation, threat hunting fundamentals

IT Systems & Networks
Basic troubleshooting, system administration (Linux, Windows, macOS), TCP/IP, DNS fundamentals

LANGUAGES

English — Fluent

Kinyarwanda — Fluent

CERTIFICATES

- Andela Technical Leadership Program Certificate
- Carnegie Mellon University Bridge Program Certificate
- Developing Mobile Apps Certificate
- kLab Startups Academy
- Meta Back-End Developer Professional Certificate
- EF Level 4 - Elementary
- JavaScript Algorithms and Data Structures Certificate
