AMBROISE Muhayimana

Software Engineer

muhayimana21@gmail.com | 0786255860 | Kigali, Rwanda | GitHub | LinkedIn

SUMMARY

Experienced Software Engineer with 4+ years building robust, scalable web and mobile applications. Skilled in full-stack development using React.js, JavaScript, Node.js, Python, Django. Strong in database management, API development, system design, Agile practices, automated testing, and CI/CD pipelines.

EXPERIENCE

Software Developer Professional Intern | ONCG Global | *March 2024 - Present*

• Maintained enterprise-grade software solutions

• Collaborated on complex technical issues and code reviews

Full Stack Software Developer | Ethical Research Solutions | *Dec 2024 - Feb 2025*

• Built web apps with modern stacks and REST APIs

• Ensured security and optimized performance

Software Engineer | Karizm | *Aug 2024 - Dec 2024*

• Delivered full-stack apps (React.js, Node.js)

• Wrote tests and used cross-platform frameworks

Mobile Developer | House Major Company | *July 2024 - Sep 2024*

• Built React Native apps with smooth UX

• Integrated APIs and collaborated with backend

Full Stack Software Engineer Trainee | Andela | *Jan 2024 - Sep 2024*

• Built responsive UIs and APIs

• Used Jest, Docker, CI/CD for deployment

IoT Intern | Carnegie Mellon University Africa | *Feb 2024 - Mar 2024*

• Developed IoT systems with sensor integration

• Gained experience in embedded and secure networks

Back End Developer | kLab.rw | *Dec 2022 - Apr 2023*

• Built backend logic and optimized performance • Applied Agile and version control practices

EDUCATION

Bachelor's Degree in Computer and Software Engineering | University of Rwanda | *2021 - 2025*

Andela Technical Leadership Program | *Jan 2024 - Sep 2024*

Full-stack training in React.js, Node.js, TypeScript. Built real-world applications.

Meta Back-End Developer Certificate | Coursera | *June 2023*

Python, Django, APIs, databases, version control.

Mobile Development Training | ICT Chamber | *Mar 2024 - May 2024*

Cross-platform development with React Native, JavaScript, TypeScript, UI/UX.

Bridge Program - IoT | Carnegie Mellon University Africa | *Jan 2024 - Mar 2024*

IoT, sensor integration, data analytics. Developed secure, real-world IoT systems.

Software Development Program | KLAB Techup Skills | *Nov 2022 - Sep 2023*

Backend dev with Node.js, Express, MongoDB. Agile methodologies and pair programming.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, Java, HTML, CSS, PHP, C/C++, SQL, Embedded C

Frontend: React.js, React Native, Tailwind CSS, Responsive Design

Backend: Node.js, Express.js, Django, Laravel

Databases: MySQL, PostgreSQL, MongoDB

Testing & DevOps: Jest, Mocha, Chai, Supertest, CI/CD, Docker, Git **Core:** API Integration, Database Management, System Design, Cross-platform Development, IoT Systems, Performance Optimization, UI/UX Principles, Problem-solving, Communication, Collaboration, Agile Workflow

CERTIFICATES

- Andela Technical Leadership Program
- Developing Mobile Apps
- Carnegie Mellon University Bridge Program
- kLab Startups Academy
- Meta Back-End Developer Professional
- JavaScript Algorithms and Data Structures

LANGUAGES

English: Fluent | **Kinyarwanda:** Fluent
